

ST EUSTATIUS, CARIBBEAN NETHERLANDS

Public Tender Engineering Service - Paving of the Seaport Area

Background

The Statia Government plans to restore the harbour and improve the accessibility and safety of the seaport. This development aims to lead to the current harbour becoming future-proof and hurricane-resistant.

In phase 1 of the project, the container yard will be paved, a sidewalk constructed, the existing breakwater extended, and a marina built.

Part of phase 1 is the paving of the port area and the construction of a sidewalk between the harbour dam and the port area. Due to the urgency and desired safety improvement in the area, it has been decided to put this part out to tender as a separate contract. Within the overall project scope, this is also referred to as phase 0.

This request has been prepared to contract an engineering firm for the civil engineering preparation of the project and the preparation of the tender documents for phase 0. This, therefore, only concerns the port area and sidewalk. See the areas identified as 1 and 5 in the image below.

The contract for the engineering services will be awarded in October 2024. After the preparatory work (i.e. research/advice, design and contract) by the engineering firm has been completed, the tender for the port area will be issued. The wish is to start this in Q2 of 2025 so that the contractor can start the execution in the 2nd half of 2025.

What is the Statia Government looking for?

To select an engineering firm for this project, the Statia Government is requesting public tenders with pre-selection.

Engineering firms interested in participating in the pre-selection are invited to express their interest and submit the following information:

1. Extract from the chamber of commerce;
2. Reference list of the engineering firm that has successfully completed similar projects.

The engineering firms that are deemed capable of successfully completing the project based on an assessment of the submitted information will be invited to participate in this tender, where they will be asked to submit a price offer with a qualitative request.

Are you interested?

The requested information must be sent to tender@statiagov.com before 4:00 PM (local time) on 7 June 2024. More information can be obtained via email: tender@statiagov.com.

The AVODI-2020 applies to this tender.
